Fahad Ali Adawi

Senior Tapping & Service Operator | Industrial Operations Specialist

Smelting & Tapping Operations • Safety & Production Excellence • **Risk Management**

Jazan, Saudi Arabia | +966 56 698 8643 | fahd-Adawi-2013@hotmail.com

PROFESSIONAL SUMMARY

Industrial Operations Professional with over 11 years of experience in smelting, tapping, and service operations within heavy manufacturing environments. Proven ability to operate production processes safely and efficiently while maintaining compliance with operational procedures and HSE standards. Experienced in monitoring industrial equipment, troubleshooting operational issues, coordinating with maintenance teams, and supporting continuous production. Holds a Bachelor's Degree in Public Administration and is currently pursuing a Master's Degree in Risk Management, combining operational expertise with administrative and risk management knowledge. Recognized for reliability, teamwork, operational discipline, and commitment to continuous improvement.

CORE COMPETENCIES

Industrial Operations: Smelting & Tapping Operations · Service Operations · Furnace Operations · Production Monitoring & Support · Industrial Equipment Operation · Process Troubleshooting & Optimization · Equipment Inspection

Safety & Quality: Operational Safety · HSE Compliance · Hazard Identification · Risk Assessment · Root Cause Analysis · Incident Reporting · Quality Control · Standard Operating Procedures (SOPs)

Operations & Coordination: Team Coordination · Shift Support · Operational Planning · Task Prioritization · Performance Monitoring · Continuous Improvement · Administrative Coordination

Professional & Digital: Problem Solving · Decision Making · Communication · Time Management · Microsoft Office Specialist (MOS) — Excel · Word · PowerPoint · Outlook · Data Entry · Report Preparation

PROFESSIONAL EXPERIENCE

Saudi Arabia — **Advanced Industries Company for Smelting (ASIC)**

2021 – Present — **Service Operator**

- Operate and monitor production service processes safely and efficiently, ensuring continuous operations and full compliance with operational and HSE standards.
- Coordinate with production and maintenance teams during operations and equipment shutdowns to maximize reliability and minimize downtime.
- Monitor operational parameters, report abnormalities and equipment malfunctions promptly, and record operational data accurately.
- Support product quality and service continuity through consistent compliance with SOPs and equipment readiness before production.

Oct 2017 – 2021 — **Tapping Operator**

- Maintained safe and uninterrupted tapping operations by strictly following operational and safety procedures, operating tapping equipment per approved SOPs.
- Improved operational reliability by coordinating with production and maintenance teams, and promoted a safe work environment by adhering to HSE regulations and safety initiatives.

Saudi Arabia — **National Titanium Dioxide Company (CRISTAL)**

Jan 2014 – Sep 2017 — **Tapping Operator**

- Supported daily production targets by executing safe and efficient tapping operations and monitoring equipment performance.
- Maintained operational consistency through strict adherence to production procedures, and reduced interruptions via early identification of equipment issues.
- Conducted routine operational inspections and prepared operational reports and production records.
- Worked collaboratively with cross-functional teams to ensure smooth workflow, maintaining compliance with quality, environmental, and safety requirements.

EDUCATION

Ongoing — **Master of Risk Management** (Currently Studying), MidOcean University

2023 – May 2026 — **Bachelor of Public Administration**, MidOcean University

2018 — **Diploma in Business Management**, Abha Chamber of Commerce and Industry
